

JOY SENGUPTA

MERN Stack Developer | Next.js Developer | Python Developer

+91 70034 80325 joysengupta521@gmail.com LinkedIn Website GitHub Kolkata, India

PROFESSIONAL SUMMARY

Motivated [B.Tech](#) AI & ML student at Narula Institute of Technology with hands-on experience in building **fullstack web applications** and **AI-driven tools**. Proficient in the **MERN stack** (MongoDB, Express.js, React.js, Node.js) and core ML frameworks including TensorFlow, PyTorch, and Scikit-learn. Proven track record of delivering **end-to-end projects** — from RESTful API integrations to intelligent automation systems — in **fast-paced internship environments**. Eager to contribute to product teams where strong engineering fundamentals meet cutting-edge AI.

WORK EXPERIENCE

Student Intern | Internship

Jan 2026 - Mar 2026

Eduskills

Remote • Kolkata

- **Acquired skills in Google AI/ML.**
- **Learned 8-library ML stack through Google AIML training** — TensorFlow, Keras, PyTorch, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn — developing foundational models and data pipelines that cut data preprocessing time by 30% on academic datasets.

Technologies / Skills Used : TensorFlow, PyTorch, Scikit-Learn, Python

Gen AI Intern | Full-time

Jun 2025 - Sep 2025

AI Wallah

Remote • Kolkata

- Developed AI-powered full-stack applications with FastAPI + React, integrating external LLM/ML APIs to automate workflows and reduce manual effort by ~50%.
- Built and executed a 20+ case Postman test suite across REST endpoints — resolved 10+ pre-deployment bugs, delivering stable, regression-free releases.

Technologies / Skills Used : HTML, CSS, JavaScript, Python, FastAPI

EDUCATION

Narula Institute of Technology | Kolkata

Aug 2024 - Jul 2028

B.Tech CSE(AIML)

Pursuing a Bachelor of Technology in **Artificial Intelligence** and **Machine Learning**. Developing a strong foundation in **computer science** principles, advanced **mathematics**, and modern AI algorithms.

PROJECTS

Agentic-CLI-Tool | GitHub

Jun 2026 - Present

Lead Developer

- Built an open-source Python CLI using NVIDIA NIM free-tier — automates repetitive dev tasks and cuts manual command overhead by ~40%.
- Designed a natural-language file system pipeline — lets developers read, write, and edit project files from the terminal with no GUI or context-switching.

Technologies / Tools Used : Python, NVIDIA NIM

Verifi | Website GitHub

May 2026 - Jun 2026

Lead Developer

- Built Verifi — a **full-stack misinformation detection platform** on **microservices**, **processing text**, **URLs**, and **images via a 4-service agentic AI pipeline**.
- Engineered **Scout** → **Reader** → **Analyst pipeline** — autonomously extracts claims, crawls live evidence, and returns a cited veracity verdict in under 10s.
- Built the **React + Node.js frontend and API layer** — unified input interface for **text**, **URLs**, and **images** with real-time verdict rendering and source links.
- Demoed the **full agentic pipeline** live at **Innovexa 2026 (SurTech hackathon)** — presented end-to-end fact-checking flow under competition conditions.

Technologies / Tools Used : React, Node.js, Express, MongoDB, Tailwind CSS, Python, Flask

YouTube Video Summarizer | GitHub Website

Jun 2026 - Jun 2026

Lead Developer

- Built a **YouTube Video Summarizer** using **OpenRouter free-tier LLMs** that extracts transcripts and condenses **60+ minute videos** into structured summaries — reducing content review time by ~80%.
- Deployed and ran the full pipeline on a **local server with zero cloud cost**, handling transcript **extraction**, **LLM inference**, and **summary rendering entirely offline**.
- Built for **Students and Developers**.

Technologies / Tools Used : React, Node.js, Express, MongoDB, Tailwind CSS, Python

SKILLS

Programming Languages :	C, C++, Java, Python, JavaScript, TypeScript
Frameworks & Libraries :	React, Next.js, Node.js, Express, Flask, Tailwind CSS
Tools & Platforms :	Git, GitHub, Linux, Postman
Databases :	MongoDB, Supabase, Firebase
Soft Skills :	Communication, Leadership, Teamwork, Decision Making
Languages :	Hindi, English, Bengali
